Career Objective

I am an M.Sc. Computer Science Gold Medalist with a strong foundation in programming, web development, and core computer science concepts. I enjoy building practical software solutions that solve real world problems and continuously improving my technical skills through hands-on learning. My experience includes developing full stack web applications, working with databases, and deploying real world projects. I am passionate about starting my professional career in the IT industry, where I can contribute effectively, learn continuously, and grow as a software professional.
